About

identifi
connect what matters.

Identifi connects the pieces of the puzzle through enterprise-wide software that organizes documents, creates business processes, signs documents electronically, and measures analytics. Identifi has driven the Enterprise Content Management (ECM) business for three decades. Beginning in 1998, ten years after launching, Identifi was one of the first companies to launch a web-based ECM product. Today, Identifi leads the way with its suite of products that incorporate the best of Enterprise Content Management, Business Process Management, and Electronic Signatures to build a new breed of collaboration software.

The Perfect Fit: Consultis and Identifi

Identifi has worked with Consultis to acquire top-of-the-line talent since 2012. In that time, Consultis has used its experience in finding the perfect synergy between tech and people to deliver five placements for Identifi. These placements range from Testers, Implementation Specialists, Product Developers, .NET Developers as well as placements for Contract, Wireless Internet Protocol, and Search services.

Consultis Delivers: Identifi Shares Their Experience

"Currently, we use Consultis exclusively. We trust their team to screen each and every IT professional the same with no shortcuts."

In all situations people are a wildcard, this is especially true when it comes to placing the right talent. Working with Consultis and their process is a pleasure. They have a great team and deliver consistent service, providing the same culture and experience no matter who the sales representative is. Consultis excels at identifying a culture fit while accurately filtering candidates in the technical aspect.The Client Specialist Services team always has a great attitude and when we transitioned from one specialist to another it was seamless, no hiccups at all. Consultis is more than just the people, they are the process. Through listening to our needs and concerns, they have earned our trust.

EddieF, Consultis Consultant

Eddie signed on with Identifi and was immediately given a huge challenge. We asked him to lead the effort to convert our application from VB.NET to C#. Using a conversion tool in combination with manual code edits, Eddie was able to help our team convert over 300,000 lines of code. Today, our entire application is written in C#. His ability to come in early and make such a significant impact really set the tone for a great relationship. Eddie continues to deliver significant contributions that move the product forward every day.
